

eGreenPass L

Automatic Covid Certificate Validation

European Covid Certificate QR Code reader device with modern and elegant design, ideal for receptions and lobbies in offices, hotels, restaurants, gyms, cinemas and museums. It allows automatic control of multiple passages without any data storage.

Equipped with an advanced 5 MP optical camera with software recognition autofocus; it can be placed on a floor/desk and is available on request with its own support stand. It is designed for indoor use only and it can have, on request, a relay output for light control and opening/locking of doors and turnstiles.

- ▶ **Modern and distinctive design** with a clear view screen
- ▶ **Reduces the investment** of staff needed to control access and validate the Covid Certificate
- ▶ Generates **immediate notification** of validation with sound, light, on-screen evidence
- ▶ **E-mail notification** to the company Manager for negative results and daily summary of checks completed

FAST AND EFFICIENT

It speeds up the flow of people with automatic control and validation of the Covid Certificate, avoiding the formation of crowds. Avoids direct contact with the customer/user.

The user can read the QR CODE directly from the screen of his smartphone or by printing it on paper.

UPDATES INCLUDED GUARANTEED

It also includes in the purchase cost software updates for technical and/or regulatory changes or new official publications.

GDPR COMPLIANT

Fully compliant with the General Data Protection Regulation GDPR: no data storage or transmission; display of only the data required in compliance with the regulations.
